The technology that you can reach

Gravimetric Batcher

Manufactured to dose the feeding of the homogenizer and batch mixers with pre-set grain and post-weight quantities in uniform batches.

- ⚙️ Lots produced with homogeneous quality
- ⚙️ Digital control
- ⚙️ Easy to exchange the material to be processed (Set up)
- ⚙️ Exclusive bridge breaking mixing system
- ⚙️ Adaptable to various production equipment by batch

The batchers have a special blades system to avoid the material agglomeration.

Made with polish stainless steel for easy cleaning and set up.

Batcher's thread and special blades system with easy disassembly.

Weighing system with precision of +/- 0.5%.

The dosage occurs in two speeds, high speed, for rapid batching up to 80% of the required weight, and low speed, to complete the dosage and to guarantee the accuracy of the weighing.

It can be single or double, as needed.

All our products have permanent technical assistance.

Gravimetric Batcher	Types		
		DG-250	DG-500
Capacity	L	250	500
Power	kW	1,9	3,0
Height	mm	1600	1500
Width	mm	2500	1400
Depth	mm	670	700
Weight	kg	500	300

We reserve the right to make any changes to the products without prior notice.

Double dosage
